BAZEPORT ENTERTAINMENT OVERVIEW

BazePort Entertainment is the library of all your Movies, Series, Recordings, Podcasts and News available in your BazePort installation. From the Entertainment section in BazePort Management studio you can manage the content in Movies, Series, Recordings, Palaset as the section of the secti

Podcast and News.

ABOUT MOVIES

Movies is the Video on Demand library of all the movies in your installation. The movies may contain BazePort Content Service subscription to Premium or Basic content package provided by Baze Technology, and movies you have uploaded to the library yourself. From Movies you can search and edit movies' metadata, it is possible to include movies' metadata in many languages. You can upload and delete your own movies.

ABOUT SERIES

Series is the Video on Demand library of all the series in your installation. The series may contain BazePort Content Service subscription to Premium or Basic content package provided by Baze Technology, and series you have uploaded to the library yourself. From Series you can search and edit series' season and episode metadata, it is possible to include series' metadata in many languages. You can upload and delete your own series.

ABOUT RECORDINGS

Recordings is the library of all TV programs recorded in the installation. Recordings can be initiated by a user program by program, or through the Catch-up functionality where a TV channel is set up to record and keep recordings for a specific number of hours. From **Recordings**, the administrator can view all recordings and delete recordings to free up disk space on the server.

ABOUT PODCAST

Podcast is the library of all Podcasts available in the installation. The administrator can set up new podcast subscriptions and manage existing podcasts and podcast episodes from here.

ABOUT NEWS

News is the library of all news service subscriptions provided by Baze Technology through BazePort Content Service. The news service you subscribe to may be available in several languages, and the administrator can select which languages the installation shall have access to, and how many news episodes or days to keep before automatic removal. The administrator can edit news metadata, delete whole news subscriptions, delete episodes in transfer queue from BazePort Content Services, or delete single episodes.

Getting started - Access to the Entertainment administration tool

bazepurt

GETTING STARTED

ACCESS TO THE ENTERTAINMENT ADMINISTRATION TOOL

To access **BazePort Management Studio – Entertainment**, simply browse to <u>http://bazeportsrv.bazeport.lan/BazePort.ManagementStudio/</u> with your favorite browser.

Please note that your computer must be connected to the same network/VLAN as the BazePort Server.

LOGIN

When prompted you will have to login with supplied credentials, see the login dialogue in the picture below.

bazepurt	
Username	
Password	
Remember me	
Sign in	
Guest login	

After login you will be presented with the **BazePort Management Studio** application. The initial window gives a quick general overview of the system status of the BazePort system. The **Entertainment** section is found in the menu on the left-hand side by navigating a level up, choosing the **Configure** menu item.

🔒 BazePort - 💄 administrator -

FUNCTIONALITY AVAILABLE FROM THE UPPER BAR

bazeport

Please note the following on the upper bar:

- **Choose BazePort installation**: from the network icon on the lefts side, you have the possibility to choose which BazePort installation to log into. This is relevant only if you have more than one BazePort installation to administer.
- Language: From the user icon on the left side, you have the option to change language for BazePort Management Studio.
- **Logout**: From the user icon on the left side, you have the option to log out of BazePort Management Studio.
- Help: From the question mark icon to the far left you can access user manuals for all **BazePort** Management Studio modules and user manuals for the BazePort units.
- Expand and collapse the menu tree by clicking on the icon on the far right side.

SEARCH

The **Search** field on the top left-hand side menu is available for all parts of **BazePort Management Studio**. This makes it possible to search through the menu names for easier access to sub menus.

	bazeport			👬 BazePort •	💄 administrator 🔸	?
	Search	System Status Dashboard				
٠	Configure	Server		Set-Top Box		
W	System Status			Status	Versions	
D	STB Manager >	Current BazePort version	8.0 21/21	Coline:	6.0.0:	97 2
1	Settings >	Channels streaming	33/33	offine: 7	£	
	Channel Manager			Unregistered 4	l.	

When you start typing letters in the field, the menus containing these letters will automatically show in a list (providing you have been granted access to them). The list of menu items is presented with the menu it is organized under.

For quick access, select the application you are interested in, and this will open on the right-hand side of the screen.

MOVIES

Movies is available from the main menu choosing Entertainment, then Movies. Movies is where you manage your movie library. The movies may contain BazePort Content Service subscription to Premium or Basic content package provided by Baze Technology, and movies you have uploaded to the library yourself.

Please note that this application requires extra hardware and BazePort VOD licenses that may not be part of your installation. Upload of your own movies requires an extra licence in addition to BazePort VOD licenses. If you do not subscribe to **BazePort Content Service Premium or Basic content package**, this library contains only the movies you have uploaded yourself.

PANEL VIEWS AND SEARCH

PANEL VIEWS

The movie library can be presented as a grid or a list, and can be sorted by title or date. The view settings are located in the top left just below the page header: **Movies**.

EDIT MOVIES

Edit is available from the Edit button

Movies Order by: Date added + View: List	1 Upload
Search	
Jumanji: Welcome to the Jungle	6
Interstellar	2
Bohemian Rhapsody	e 🚺
The Lego Movie 2: The Second Part	2

In the list view, the buttons are located to the right of each movie title.

In the grid view, these buttons can be found at the top of the movie cover by hovering the mouse pointer over the cover, see buttons for the movie *Bohemian Rhapsody*.

If the Edit button is clicked, the Edit movie dialog box will open.

EDIT MOVIE DATA DIRECTLY

Most of the properties shown here can be edited directly by clicking the respective text and start typing. The exception is *Genres* where you get a drop down list of genres to choose from. To remove a genre from a movie, click the X next to it.

EDIT MOVIE DATA BY FETCHING DATA ONLINE

The **Movie title** field has a built in search feature. As you type, a list of movies matching the text will appear below the text field.

By clicking one of the titles, movie data is fetched from **The Movie Database (tMDB)** and replaces the existing data including the cover and backdrop images. Clicking the magic wand button on the right will search **tMDB** for the text already in the title field and display a similar list to pick from.

By clicking either of these, the movie will also have a **tMDB** reference for fetching translation of the title and description later.

To remove the reference to **tMDB**, click the left button of the two buttons to the right in the picture, as shown in the screenshot below. To refresh the data from the connected **tMDB** movie, click the button to the right.

REPLACING MOVIE COVER

The cover image and the backdrop image can both be replaced. Hover the mouse pointer over either the cover or the backdrop image to reveal the **Upload** button. Click the button and pick images from your computer to replace the current image.

ADD TRANSLATIONS

To add a translation, click the **+-**tab next to the default tab.

The languages in this list are configured in the system setting **Content languages**, available from the **Configure** module, **Settings** menu, **System settings** menu.

Click the desired language to add a translation. If the movie has a **tMDB** connection (see description for connecting movie above), the system will try to fetch a translated title and description.

To remove a translation, click the X next to the language tab. To fetch metadata from the connected **tMDB** movie, click the refresh button to the right of the movie title. If this button is not present, try connecting a movie from the default tab.

Remember to save your changes.

UPLOAD YOUR OWN MOVIES

It is possible to upload your own movies to the Movies library.

To upload a movie, click the **Upload** button in the top right hand corner of the page, and select video files from your computer.

Select the movies you want to upload. You can select multiple movies.

Note that the name of the file can be used to help you with movie data in the library.

Please note Image: Copyright is your responsibility Please carefully note that you are solely responsible for holding the correct licenses to store and make copyrighted material available at your venue. Baze Technology will not accept any copyright claims or otherwise engage in any copyright legal dispute on behalf of BazePort IPTV system users. Baze Technology can offer subscriptions for copyrighted material licensed for your venue. BP-01-UM-017_1A MANAGEMENT STUDIO – ENTERTAINMENT Page 13 of 45

The file name will be used to fetch movie data from tMDB.

Upload movies

While uploading, the progress bar at the bottom will show the total upload progress for all the movies. Progress for each movie is shown under each movie backdrop image at the right.

After all movies are uploaded, the dialog box will close and you will return to the updated movie library.

SERIES

Series is available from the main menu choosing Entertainment, then Series. Series is where you manage your series library. The series may contain BazePort Content Service subscription to Premium or Basic content package provided by Baze Technology, and series you have uploaded to the library yourself.

A series is divided into episodes. A series may also have one or more seasons, where each seasons consists of a number of episodes.

Please note that this application requires extra hardware and BazePort VOD licenses and may not be part of your installation. Upload of your own series requires an extra BazePort licence in addition to BazePort VOD licenses. If you do not subscribe to BazePort Content Service Premium or Basic content package this library contains only series you have uploaded yourself.

PANEL VIEWS AND SEARCH

PANEL VIEWS

The series library can be presented as **Grid** or **List**, and sorted by *Title* or *Date*. The **View** settings are located in the top left just below the page header: **Series**.

The screenshot below displays the Grid view.

The screenshot below displays the **List** view. By clicking the current **View** option, the setting will change to the other.

EDIT SERIES DATA BY FETCHING DATA ONLINE

The series **Title** field has a built in search feature. As you type, a list of series matching the text will appear below the text field.

By clicking one of the titles, movie data is fetched from **The Movie Database** (tMDB) and replaces the existing series data including the cover, backdrop image and episode information. Clicking the magic wand button on the right will search tMDB for the text already in the title field and display a similar list to pick from.

Breaking B	2
Description:	Breaking Bad (2008)
When Walter White, a New Mexico cherr given a prognosis of only two years left	Breaking the Band (2018)
fearlessness and an unrelenting desire t	Breaking In (2011)
he enters the dangerous world of drugs	Breaking Amish (2012)
Drama ×	The Breaking Point (1991)
Genres:	After Breaking News Already (2016)
Aliases:	Breaking News with Jessica Almenas (2018)
	Breaking Dawn (2019)
Season 5	Couple Breaking (2007)
1 Live Free or Die	Breaking Point ()
	Breaking Big (2018)
2 Madrigal	Breaking Magic (2012)
3 Hazard Pay	Breaking Point (1963)
4 Fifty-One	

By clicking either of these, the series will also have a **tMDB reference** for fetching translation of the title, and description and episode information later.

To remove the reference to **tMDB**, click the left button of the two buttons to the right in the picture, as shown in the screenshot to the left.

To refresh the data from the connected **tMDB** series, click the button to the right. It is also possible to refresh data for a single season by clicking the refresh button next to the season header.

ADDING TRANSLATIONS

To add a translation, click the +-tab next to the default tab.

The languages in this list are configured in the system setting **Content languages**, available from the **Configure** module, **Settings** menu, **System settings** menu.

Click the desired language to add a translation. If the series has a **tMDB** connection (see description for connecting movie above), the system will try to fetch a translated series title, description and episode data.

REMOVING TRANSLATIONS

To remove a translation, click the **X** next to the language tab. To fetch metadata from the connected **tMDB** series, click the refresh button to the right of the series title. If this button is not present, try connecting a series from the default tab. It's also possible to fetch data for a single season by clicking the refresh button to the right of the season header.

DELETE A SEASON OR EPISODE

DELETE SEASON

To delete an entire season, click the **Delete** button at the right hand side of the season header.

Hover the mouse pointer over an episode in the episodes list to reveal the **Edit** and **Delete** buttons for the episode. Click the **Delete** button to delete the episode.

UPLOAD YOUR OWN SERIES AND EPISODES

It is possible to upload your own series to the Series library.

UPLOAD EPISODES TO ONE SERIES

To upload episodes to a series, use the **Upload** button in the **Edit Series** dialog box (see picture to the left).

Select the episodes you want to upload from your computer.

Please note Copyright is your responsibility Please carefully note that you are solely responsible for holding the correct licenses to store and make copyrighted material available at your venue. Baze Technology will not accept any copyright claims or otherwise engage in any copyright legal dispute on behalf of BazePort IPTV system users. Baze Technology can offer subscriptions for copyrighted material licensed for your venue.

BazePort will try to match the filename to the correct season and episode. To be able do this match, the filename should contain *SXXEYY*, where *XX* is season number and **YY** is episode number. If **BazePort** is not able to do this match, the episode and season has to be set manually. If the series has a **tMDB** connection, episode title, description and thumbnail will be fetched.

For every podcast selected, it's possible to set if previous episodes should be downloaded and if episodes that are already downloaded should be automatically deleted.

To download previous episodes, check the checkbox next to the label **Get previous episodes**. This will reveal options for **Limit type** set to *Quantity* with the default value set to 10 episodes. When clicking the **Save** button at the bottom of the dialogue box, the subscription will be added and the 10 latest episodes will be downloaded. Topic:

To set up auto delete for a podcast, check the checkbox next to the **Auto delete** label to reveal the auto delete options. The **Limit type** is set to *Quantity* and to keep the 10 latest episodes by default. When the number of episodes exceed the value set here, the oldest episode will be deleted.

Setting the **Limit type** to *Date limit* will replace the *Quantity* with a calendar. By default this is set one month back in time, but you can set this to any date in the past by clicking a date in the past. When clicking the **Save** button at the bottom of the dialogue box, the subscription will be added and all episodes published from the selected date will be downloaded.
