Description	Date	Revision		Approved	
Release Notes BazePort 4.0.1	7-Oct-10	1.0	Subject to Change Without Notice	SOL/TR/ENLV	

Bug fixes in BazePort 4.01:

- PA Mute releases TV mute
- VoD service occasional fail to restart after unexpected server shutdown

6 ENTERTAINMENT MODE

6.1 ALARM CLOCK FOR ENTERTAINMENT MODE

An easy to use Alarm clock application has been added to the standard license delivery package. Users can set a single or daily repeatable alarm. A new user interface has been developed allowing to set alarm using the BazePort remote control. The alarm sound is played from the CT113/CT113HD unit using the built in speaker. This allows alarms to heard when TV sets are turned off. When the TV set is on a splash screen with stop alarm/snooze information is visible.

On BazePort 4 (entertainment mode only) open Alarm clock with the BazePort button on remote ctrl. Set alarm by using number buttons and on screen instructions.

7 DESKTOP MODE

No changes or new feature on Desktop Mode in release 4.01

8 MANAGEMENT STUDIO

8.1 "WHO AM I" FUNCTIONALITY

Management Studio now includes a "Who am I" functionality available for Super-users. The "Who am I" function provides a simple information on which id number a BazePort CT unit has been assigned. "Who am I" is built for management purposes only. "Who am I" is trigged with ##11# in entertainment mode.

8.2 SEND MESSAGE TO PA ZONES

The "Send Message" functionality available in BazePort Management Studio can now send message to a single PA zone. Each BazePort CT unit assign to a PA zone will receive an on-screen splash screen message. (known functionality in BazePort 3 now included in BazePort 4)

9 BAZEPORT SERVER

9.1 MAC FILTER FOR BAZEPORT UNITS

New in BazePort release 4.01 is a setting in the setup configuration that makes it obligatory for all BazePort CT units to be identified as known units by the BazePort Server. This is to prevent that a not known unit can be deployed with BazePort software when the unit has PXE boot option set.

10 REQUIREMENTS

Release 4.0.1 requires BazePort 4.0 pre-installed.

Description	Date	Revision		Approved
Release Notes BazePort 4.0.1	7-Oct-10	1.0	Subject to Change Without Notice	SOL/TR/ENLV

11 UPGRADE INFORMATION

All BazePort 4 installations with a valid BazePort Software Maintenance Programme are eligible for an upgrade. No updates are being done without client appointment.

12 BUG FIXES

12.1 PA MUTE RELEASES TV MUTE

A mute of CT unit triggered by PA/GA mute functionality also released mute of sound set by individual users when released by PA/GA. Fix keeps CT unit muted after PA/GA mute is released.

12.2 VOD SERVICE OCCASIONAL FAIL TO RESTART AFTER UNEXPECTED SERVER SHUTDOWN

A shutdown of the BazePort server can on occasion lead BazePort CT unit to not start VoD service on CT client. Improved robustness for CT unit VoD service implemented.

13 ABOUT BAZEPORT INFOTAINMENT
